

~~Egenvurdering / Self-assessment ved / at Infomedia #83~~

Semester / Teaching Semester

Vår 2023

Emnekode og navn / Course code and title MEVI310-8 Forskningserfaring og metode: Medias dekning av klimakrisa, årsakar og løysningar

Navn på emneansvarlig / Name of course coordinator Silje Kristiansen

Hvordan foregikk undervisningen? / Content and teaching

The course met in person during a 4 week period. Students were expected to do reading on their own at home. During the course meetings we had some lecturing, a lot of discussions and group work.

Hva fungerte og hva fungerte ikke? / What worked well, and what didn't?

My one aim of training the students in working as researchers and identifying a research gap and developing a research proposal around that worked very well.

The reading on their own outside of class did not seem to work as well.

Hva vil du forbedre? / How do you plan to improve the course?

In the future, in a similar course where readings are required to happen outside of the classroom, I would like to have students apply for uptake in the course by writing a summary of the literature on the syllabus - before they get accepted to take the course.
