

EMNERAPPORT NUTR230 AUTUMN 2014

Emnekode: Nutr230		Semester:		Institutt: K1		
Emnetittel: Research methods in nutrition		H 2014				
Emneansvarlig: Jutta Dierkes		Godkjent i:				
Dato: September 2015		Programutvalg for ernæring, H15				
INNLEDNING:						
<ul style="list-style-type: none"> • Oppfølging fra tidligere evalueringer: • The course was changed from the spring semester to the autumn semester as the PU felt that students needed the skills taught in this course for their bachelor theses. It was also useful for Nutr240 as many study designs etc did not needed to be explained in that course. This change also allowed the students to spend more time on their bachelor theses • The course is mainly taught in English to allow exchange students to participate. 						
STATISTIKK:						
Antall vurderingsmeldte studenter: 20			Antall studenter møtt til eksamen:			
			20			
Karakterfordeling ->:	A:	B:	C:	D:	E:	F:

SAMMENDRAG AV STUDENTENE SIN EMNEEVALUERING (<i>hovedpunkt</i>):						
We did not evaluate the course formally with the students.						
EMNEANSVARLIG SIN EVALUERING:						
<ul style="list-style-type: none"> • It was very positive that the course was taught earlier than before. • Basically, Nutr230 is based on 20 lectures and a datalab (Introduction to statistics and working with data) • Pensum: Rosalind Gibson: Principles of nutritional assessment. 2nd edition, Oxford University Press 2005. ISBN 13 978-0-19-517169-3, and selected articles 						
MÅL FOR NESTE EVALUERINGSPERIODE - FORBEDRINGSTILTAK:						
Formal evaluation by the students should be done after the next turn (spring 2016)
