Har du utfyllende kommentarer til forelesningene?

- It would have been nice to have had the pdfs of the lectures beforehand, some lecturers uploaded them only days later.

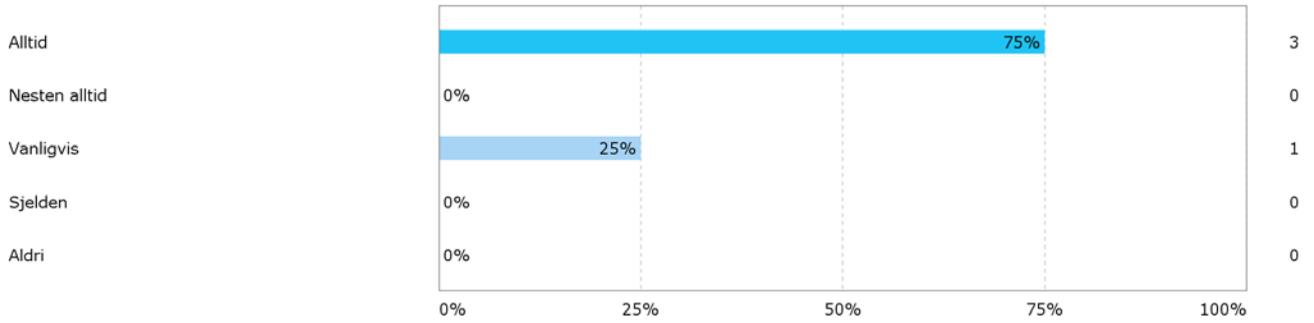

Hva likte du best med forelesningene?

- Interesting teachers, very interesting subjects.
- The fact that we had different teachers giving the different lectures made it dynamic and diverse.
- Interesting examples, theory and reality nicely connected.

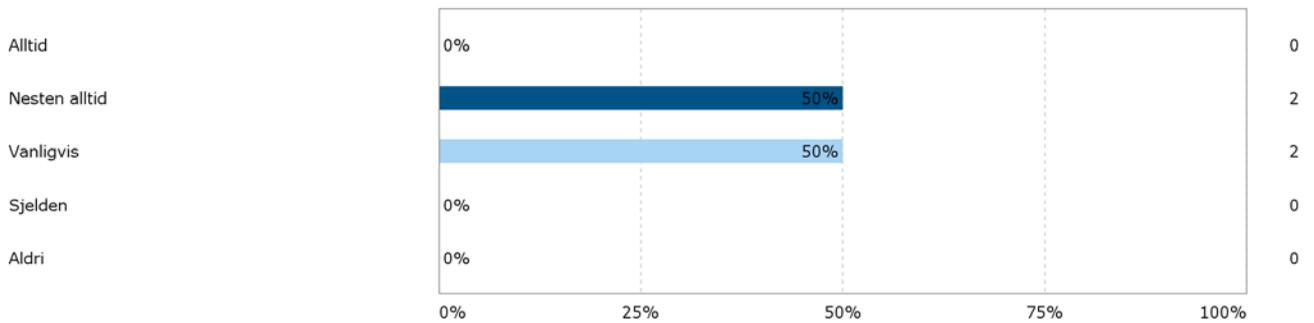

Hvordan kan forelesningene forbedres til neste år?

- Perhaps a feedback after each essays because we don't know what we did wrong or right, so that we can improve for the next essay. At least on our writing and how we treat the subject I think.
- Better structure regarding the course plan.
A better description of the evaluation the course and some feedback for the essays.
- I actually wish there had been more lectures to gives us more time to fully explore each subject.
- Some lecturers did not have notes on the slides, which made it hard to recap what was said when you were sick for that specific lecture.

Har du utfyllende kommentarer til labøvelsene/seminarene/øvelsestimer?

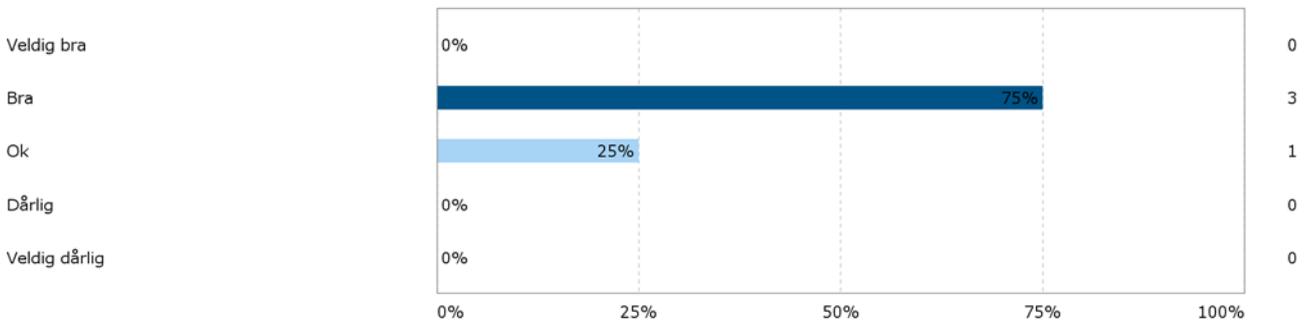

Hva likte du best med øvelsene/seminarene?

- It helped a lot to understand what we were going to write in the essays.
- Helped to understand the lectures
- It pushes us to understand the subject in our own words.
- Deeper understanding of certain topics was gained by working on the practicals.

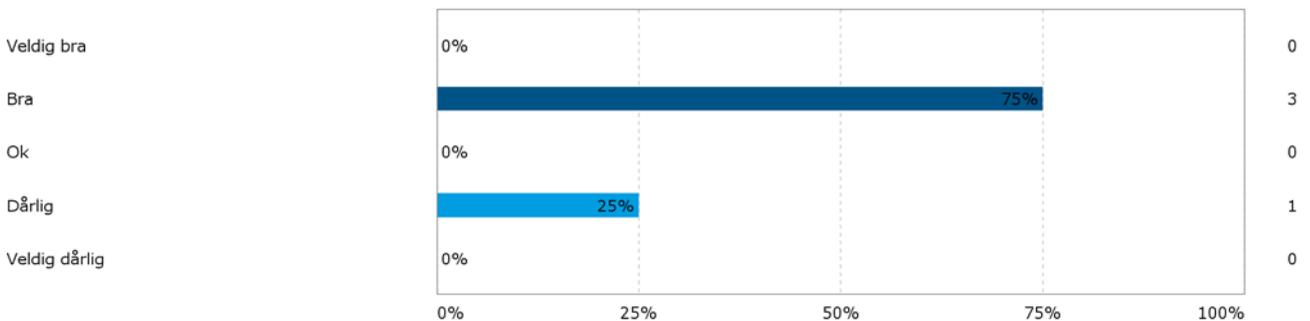

Hvordan kan øvelsene forbedres til neste år?

- It should be clear which exercises are mandatory and a feedback on the exercises would be nice.
- The fact that the exercises were essays was a little bit disappointing for me. I wish we could have had practical work or demonstration of own measurements are actually taken and analysed. I thought it was a little bit too theoretical.
- More feedback on the practicals would be highly appreciated :)
And reading over a hundred pages for one practical (regarding the biomarkers lecture) seemed a little extensive.

Har emnet som helhet gitt deg større innsikt i faget?

Hvis du kunne gi karakter for emnet i sin helhet, hvilken karakter hadde du gitt?

Har du utfyllende kommentarer til emnet som helhet? Dette er det siste tekstfelt.

- I really appreciated the course and I like the concept of several lecturers focusing on their special field.

Overall, it is a high workload for the amount of credits, which is why it should possibly considered to make it a 300-level course.
